EXPERIENCE

Email Operations Specialist

🏢 ConnectiveRx

📅 Nov 2024 – Current

- Set up journey automation, list management, QC, optimization and performance monitoring of email campaigns in Adobe Campaign.
- Optimize email deliverability through A/B testing, segmentation strategies, and performance analysis to improve open and click-through rates.
- Support client-facing project plans establishing timelines, milestones, and deliverables necessary for successful execution of sponsored campaigns via email and SMS.
- Perform quality assurance and troubleshoot code rendering across Outlook desktops and mobile environments using testing with Email on Acid.
- Support cross-functional teams in the integrity and maintenance of the healthcare provider (HCP) contact database used to drive all messaging offerings.
- Query and provide HCP outreach counts to internal and external customers in support of RFPs and project scope.

Junior Web Developer/Software Tester

🏢 3C Institute

📅 July 2021 – Dec 2023

- Designed and developed 10+ web applications using HTML, CSS, Javascript, and jQuery.
- Developed and executed software test plans for feature, end-to-end, and regression tests.
- Customized WordPress themes and managed software upgrades on 20+ WordPress sites and landing pages.
- Managed full development life-cycle, including requirements, design, coding, software testing, debugging, and ongoing support.
- Developed and documented reusable React components for use in 60+ web applications, managed in a Lerna multi-repo.
- Experienced working in Agile environments, collaborating with cross-functional teams through sprint cycles, standups, an QA testing workflows to support on-time project delivery.
